Today, we are going to discuss about procedure text, especially how to make something. So, in the end of this session, you must be able to make a procedure text. Do you get it?

Alright. In the other words, you should prepare yourself to read the procedure text that you make in front of the class. Starting from the right side, Zila first, continued by ... (student's name) and etc. Please .

Amazing! Your performances are running well. I'm very proud of you all. Give applause for us!
